Premier Tan Sri Abang Johari Openg said that the state government will distribute the income for the development of the state that has been planned through Post Covid-19 Development Strategy 2030. — Bernama pic

As a developed state, Sarawak will champion Economic Prosperity, Social Inclusivity and Environmental Sustainability

Sarawak's 2030 Vision

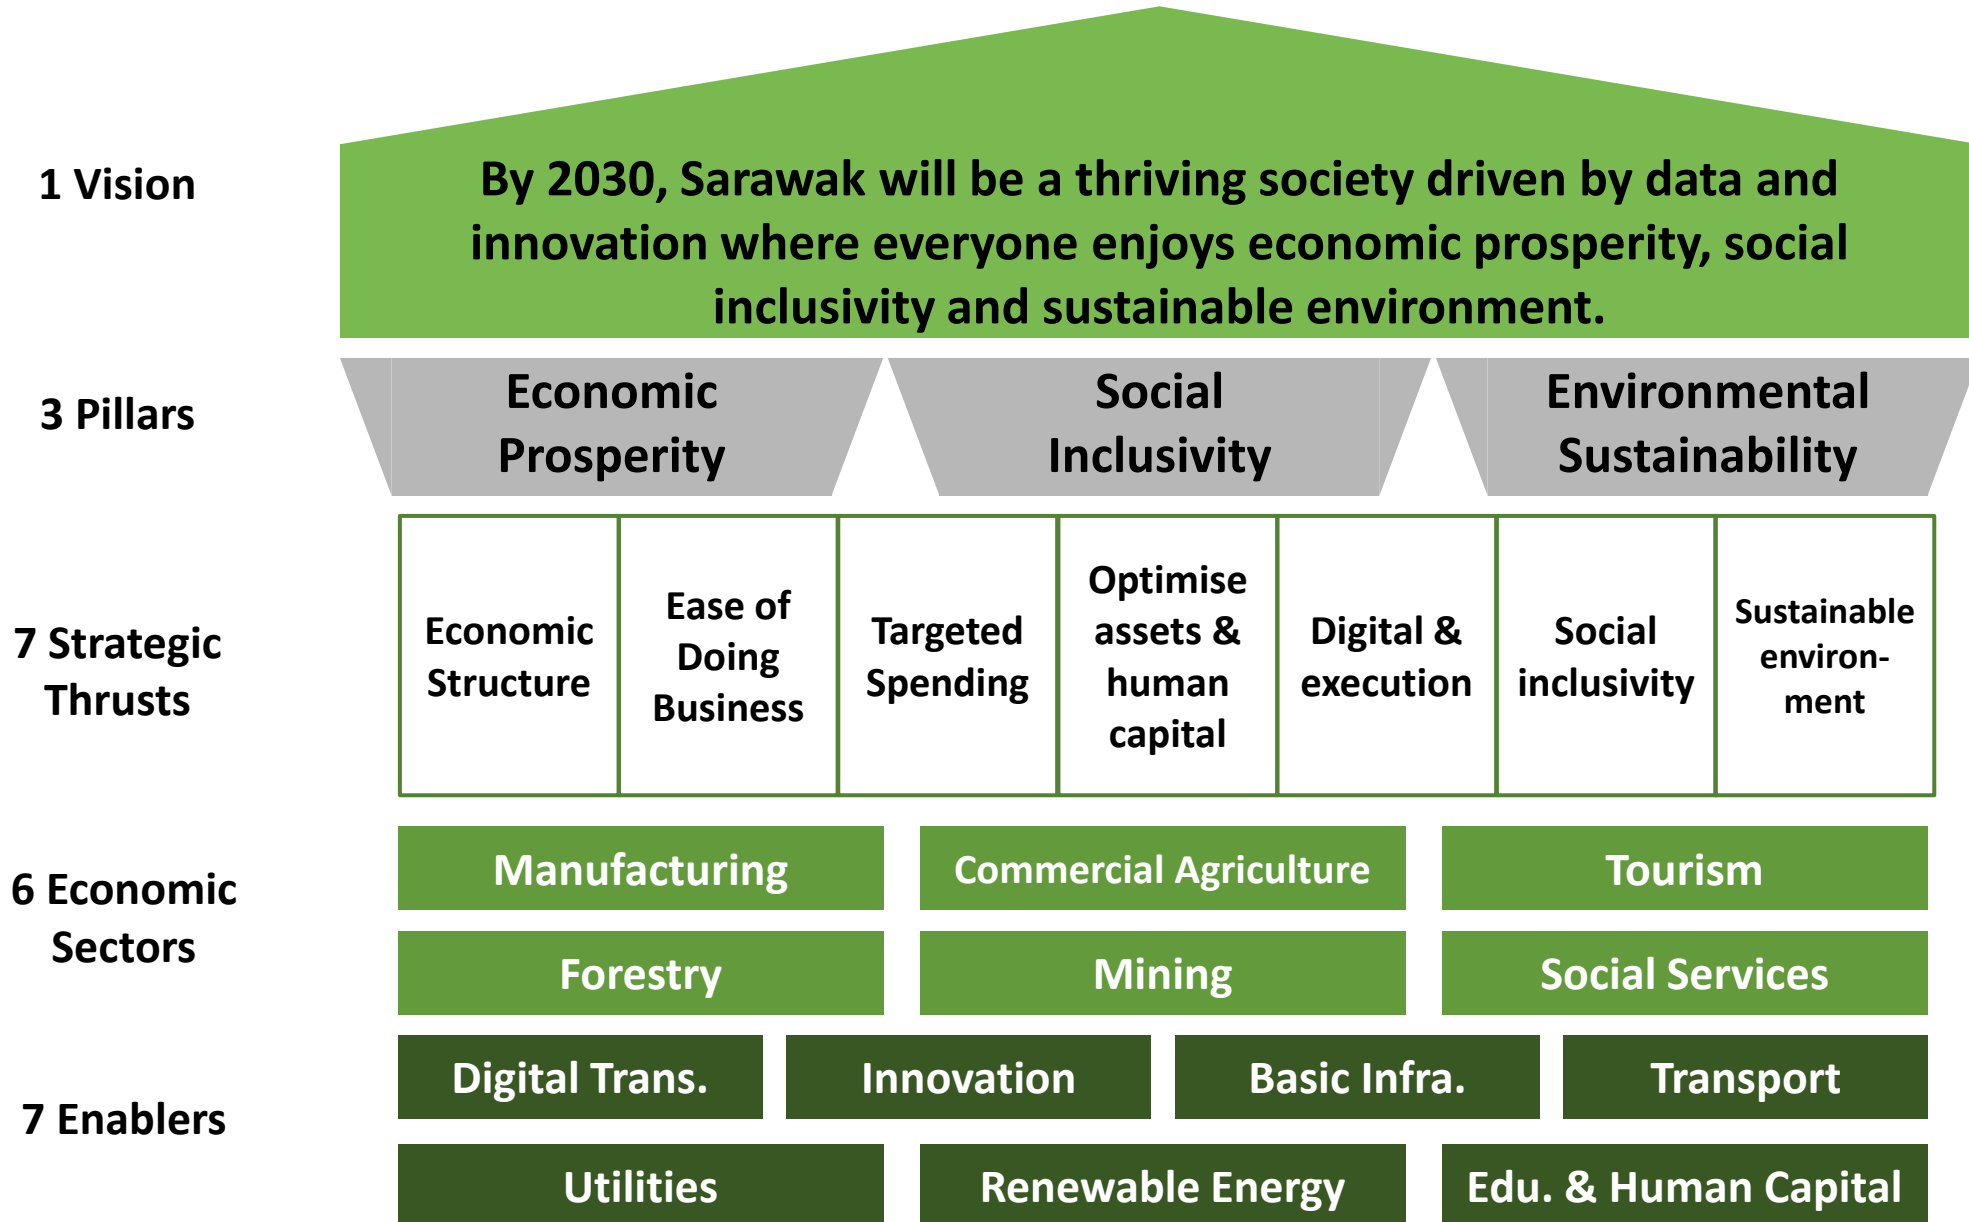

What is the Role of Councillors & Officers of Local Councils in PCDS 2030?

- ✓ **Understand the state's vision** & how the local community can contribute
- ✓ **Improve service delivery** at the local council to enhance the lives of the people & to improve ease of doing business
- ✓ **Share information** about PCDS 2030 to the local community
- ✓ **Represent the local community** in raising issues & feedback to the state government

Summary of PCDS 2030

Seven strategic thrusts in PCDS 2030 outline the new ways of working for Sarawak

Economic structure	Ease of doing business	Targeted spending	Optimise assets & human capital	Digital & execution	Social inclusivity	Sustainable environment
Transform Sarawak into a competitive economy by increasing productivity level, developing more high value downstream activities and creating new industries	Significantly improve ease of doing business and make Sarawak an investment destination of choice	Spending on areas that most likely to yield the most economic, social and environmental impact	Creative use of assets and funding model to optimise, and focus on developing Sarawak human capital	Accelerate digital adoption and data utilisation, and intense focus on execution to generate outcomes	Drive economic and social benefits down to all Sarawakians, with a focus on vulnerable segment of the population	Balance economic growth with environmental sustainability

PCDS 2030 is anchored upon six key economic sectors & seven key enablers

Six key sectors will drive Sarawak's Sustainable Growth by 2030

1

Manufacturing

Contribute to 30% of GDP

2

Commercial Agriculture

Net food exporter

3

Tourism

*7.5% Annual growth rate
in tourist arrivals*

4

Forestry

RM8bil annual export value

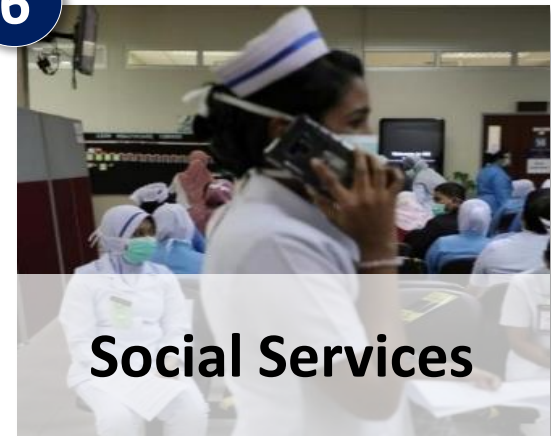

5

Mining

RM5bil direct GDP contribution

6

Social Services

*100% healthcare coverage
for B40 children*

Economic Sector – (1) Manufacturing

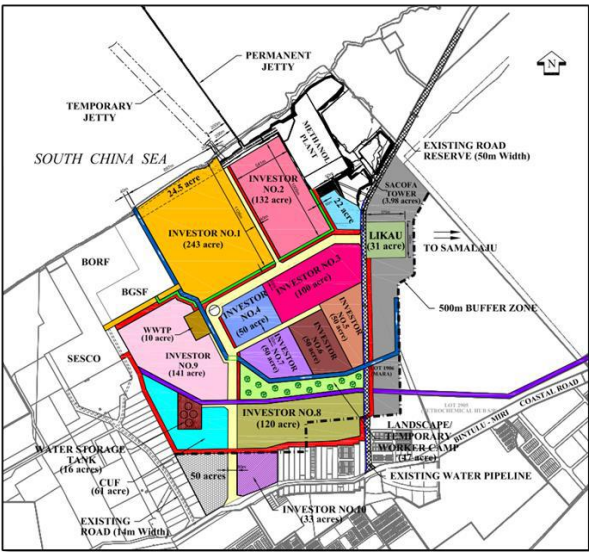

Priority Projects

- Invest Sarawak
- Investment Promotion
- Kuching High-Tech Park
- Demak Laut Industrial Park
- Entrepreneur Development

Currently, Sama Jaya High Tech Park has attracted RM13.3 billion investments

Samajaya High Tech Park

*Kidurong
Petrochemical
Hub, Bintulu*

Currently there are 9 companies operating in Samalaju Industrial Park which has generated 6,654 employment

Samalaju Industrial Park

Economic Sector – (2) *Commercial Agriculture*

Priority Projects

- Agro Parks
- Paddy and Rice Industries

- Sustainable Forest Management Centre
- Furniture Park
- Bamboo Industry

Gain National and International Recognition through conservation and sustainable management

- 1 million ha of Totally Protected Areas (TPAs)
- 56% forest cover
- Contribute to reduction of carbon emission target
- To get International recognition of 5 additional TPAs by 2030

Nursery – Forest restoration Program

Economic Sector – (5) Mining

Priority Projects

- Geological Mapping
- Mining Masterplan & Policies
- Sarawak Minerals Information System

Economic Sector – (6) Social Services

Priority Projects

- Integrated Social Development & Intervention System
- Early Childhood Education
- Integrated Social Intervention & Social Support
- Health Assistance
- Solid Waste Management & Recycling
- Housing Assistance

Housing Deposit Assistance Scheme (HDAS) for B40 and M40

Seven key enablers to ensure Sarawak's 2030 vision can be achieved

1

100% households with internet connectivity

2

Increased R&D expenditure

3

100% road connection to commercial centres

4

20% share of public transportation

5

100% coverage of water & electricity

6

Maintain 60% Renewable Energy mix

7

40% Science enrolment

Enabler – (1) *Digital Transformation*

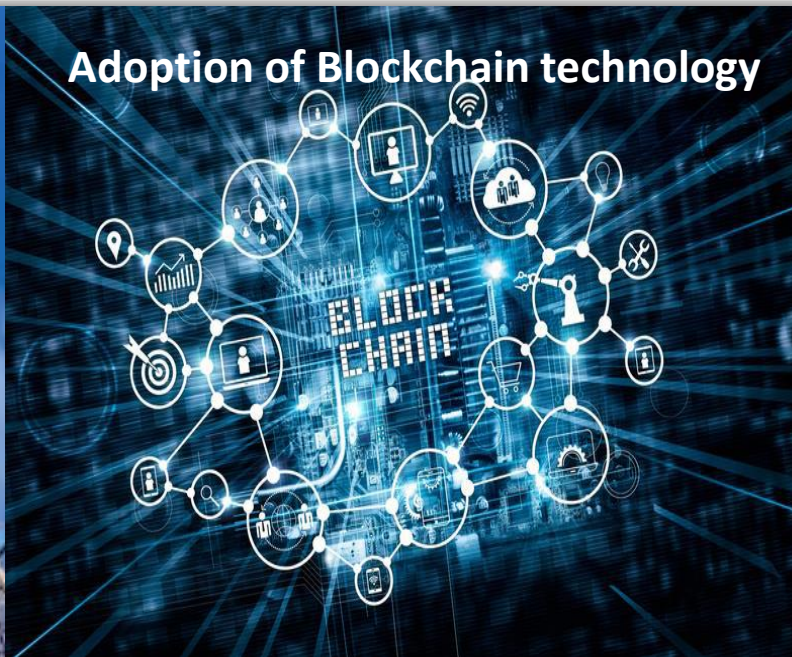

Initiatives

- Infrastructure & Connectivity
- Digital Talent & Community Centres
- Sarawak Integrated Operation Centre (SIOC)
- Sectoral Digital Transformation Projects

Telco Towers

Adoption of Blockchain technology

Enabler – (2) *Innovation*

Priority Projects

- Bioindustrial Park
- Digital Testbed & Living Labs
- Venture Capital Fund
- Digital Ecosystem
- BioHub Port

The development of Sarawak Bioindustrial Park (SBP) will unlock Sarawak's Potential in Bioeconomy

Objectives of SBP

Be the leading centre of the State to develop bio-business opportunities for commercialisation of research

Establish a highly organised infrastructure and biotech-equipped platform for manufacturing key marketable Sarawak products

Attract and spur local and foreign investments through public-private partnership

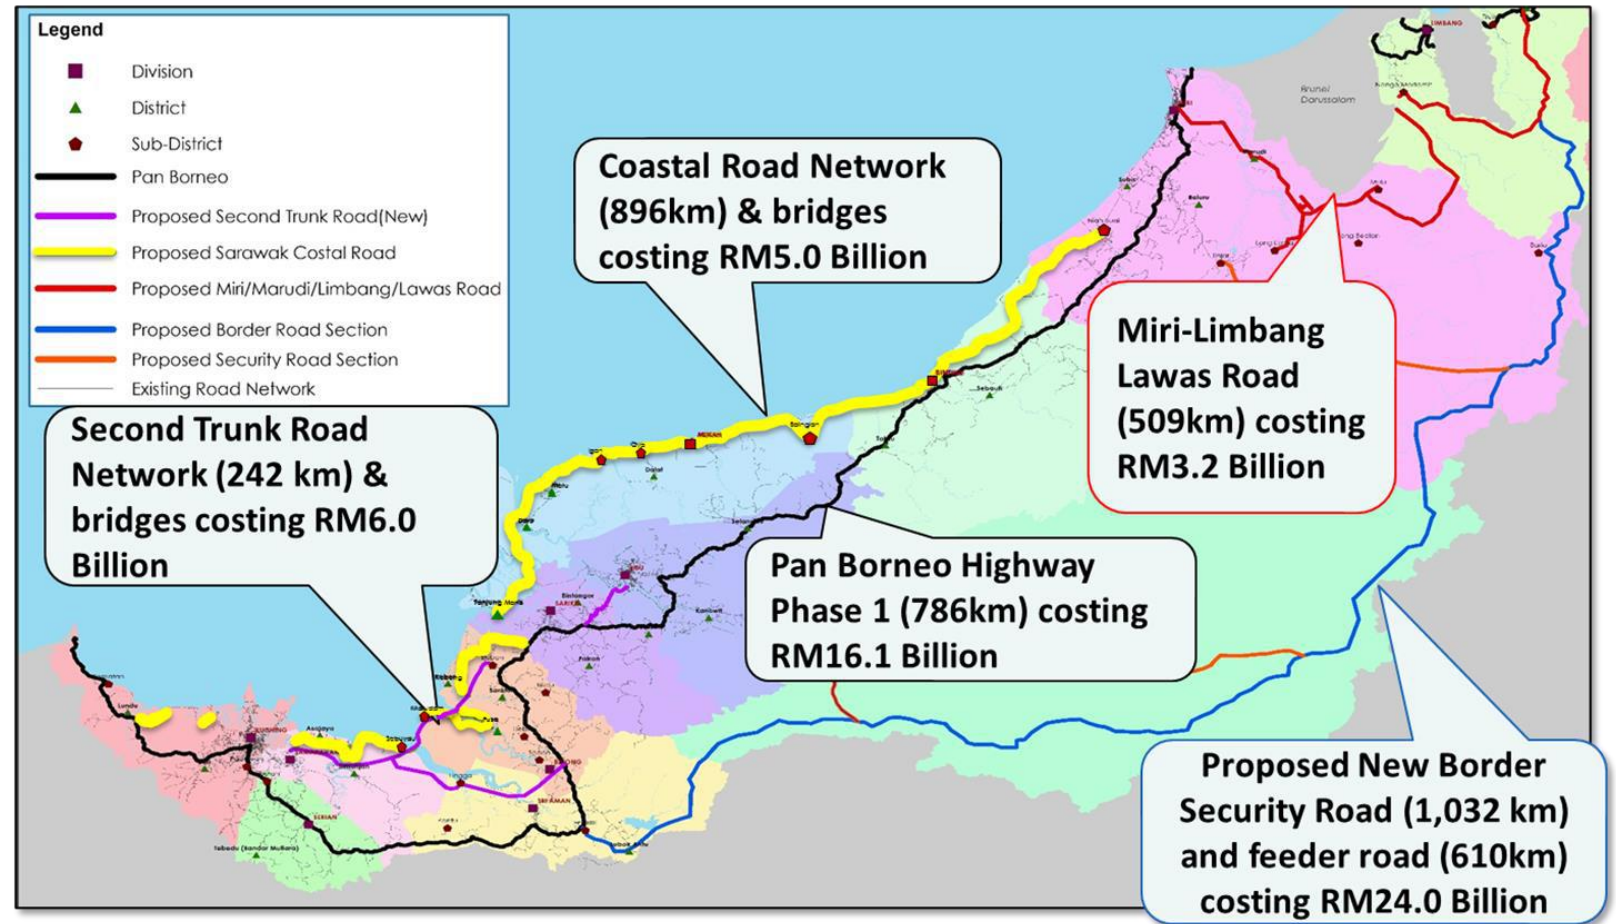

Foster growth of new businesses to generate new income, employment and advancement of innovation and technology

Enabler – (3) Basic Infrastructure

Priority Projects

- Rural Connectivity
- Miri-Limbang-Lawas Connection
- Second Trunk Road
- Coastal Highway
- Efficient Port Services
- New Deep Sea Port
- Senari Port Expansion
- Senari Free Zone
- Reinvigorating Miri Port

Enabler – (4) *Transportation*

Priority Projects

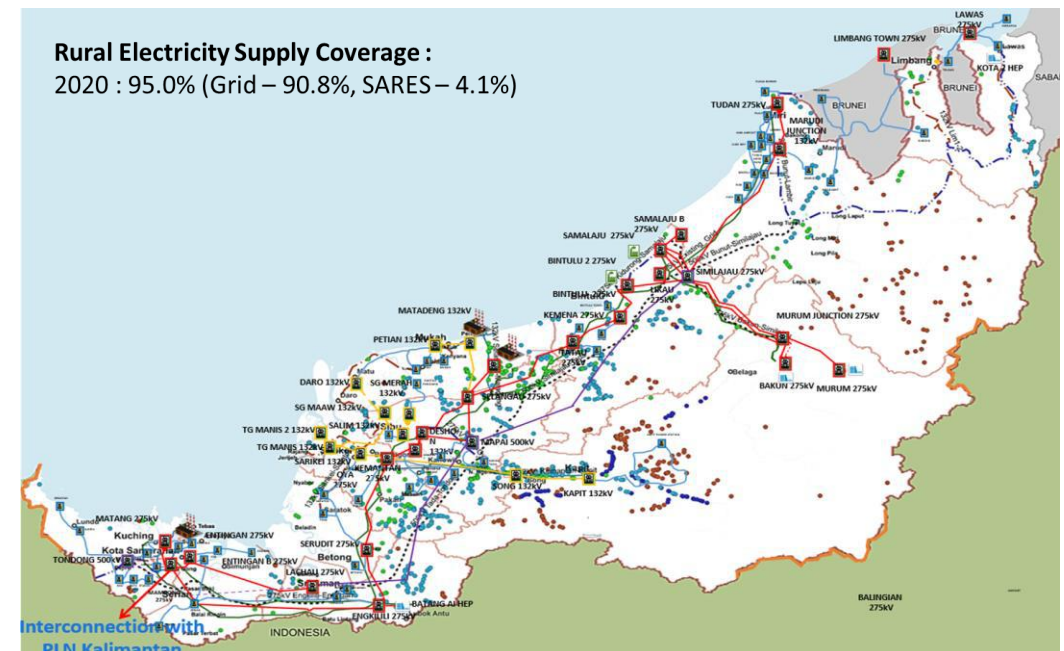

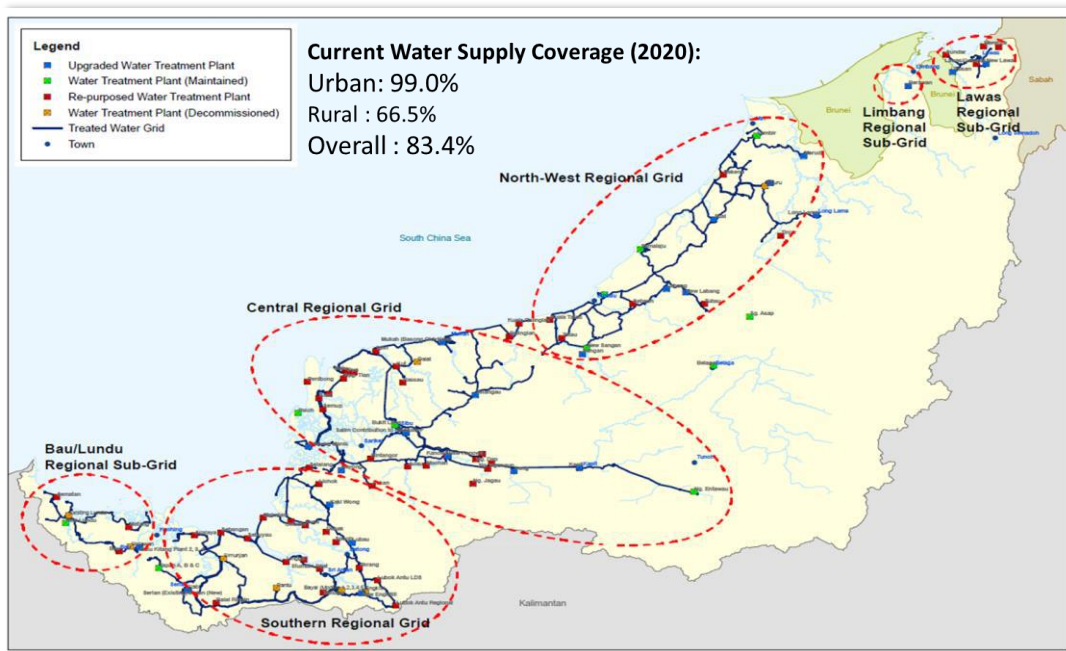

- Bus Subsidy Programme
- Land Transport Planning
- Kuching Urban Transport System (KUTS), Autonomous Rapid Transit (ART)
- Riverine Transport development
- Aviation sector development

Enabler – (5) Utilities

Initiatives

- 100% Electricity & Water supply to rural areas through grid and alternative systems
- Virtual gas pipeline
- Bintulu-Samalaju gas pipeline

Enabler - (6) *Renewable Energy*

Priority Projects

- Hydrogen Economy
- Export of Renewable Energy
- Algae for Biofuels

Enabler - (7) *Education & Human Capital*

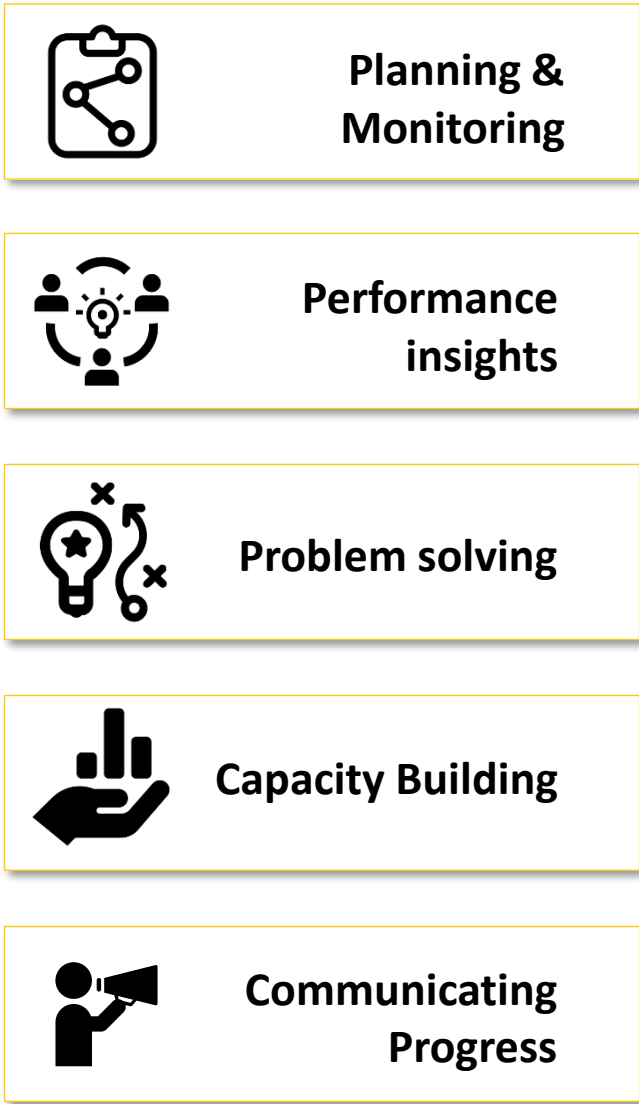

Priority Projects

- Industry-Driven Human Capital Development
- Repair of Dilapidated Schools
- Sarawak Science Centre
- Teaching of Science & Math in English
- Digital Skills Training
- Sports Development
- Advanced Automotive Training Centre (AATC)

PCDS implementation will be monitored by the Performance Management & Delivery Sector (PMD) in the Economic Planning Unit Sarawak

5 key
roles
played by
PMD

This block features a large black star icon inside a white circle, which is centered within a white rectangular area. This white area is flanked by two solid orange horizontal bars, one above and one below. To the right of the star icon, the text 'Help ministries and agencies to deliver concrete results in priority goals' is written in a bold, black, sans-serif font.

DO's

- Help ministries to deliver their goals
- Give credit to where it belongs
- Simplify things

DON'Ts

- Take over ministries' roles
- Take credit from ministries
- Add bureaucratic burden

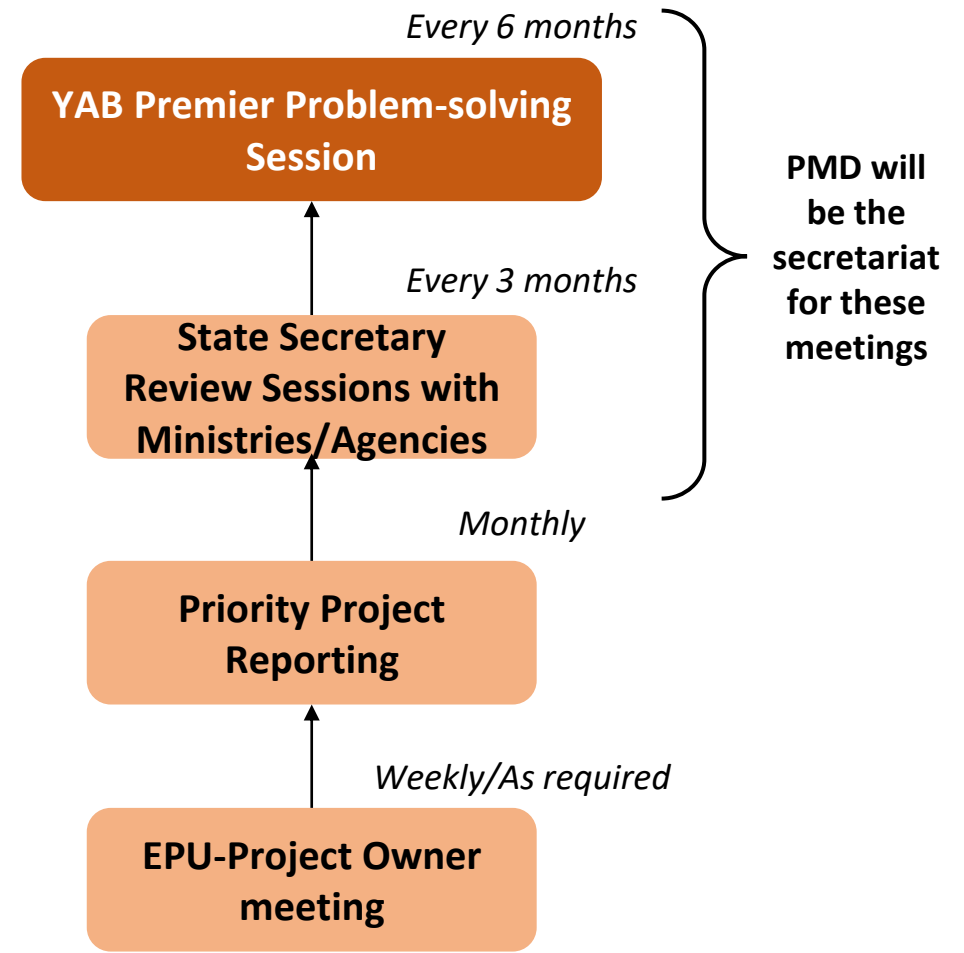

PMD will track, monitor and problem solve priority projects under PCDS 2030

KPI tracking & Project monitoring

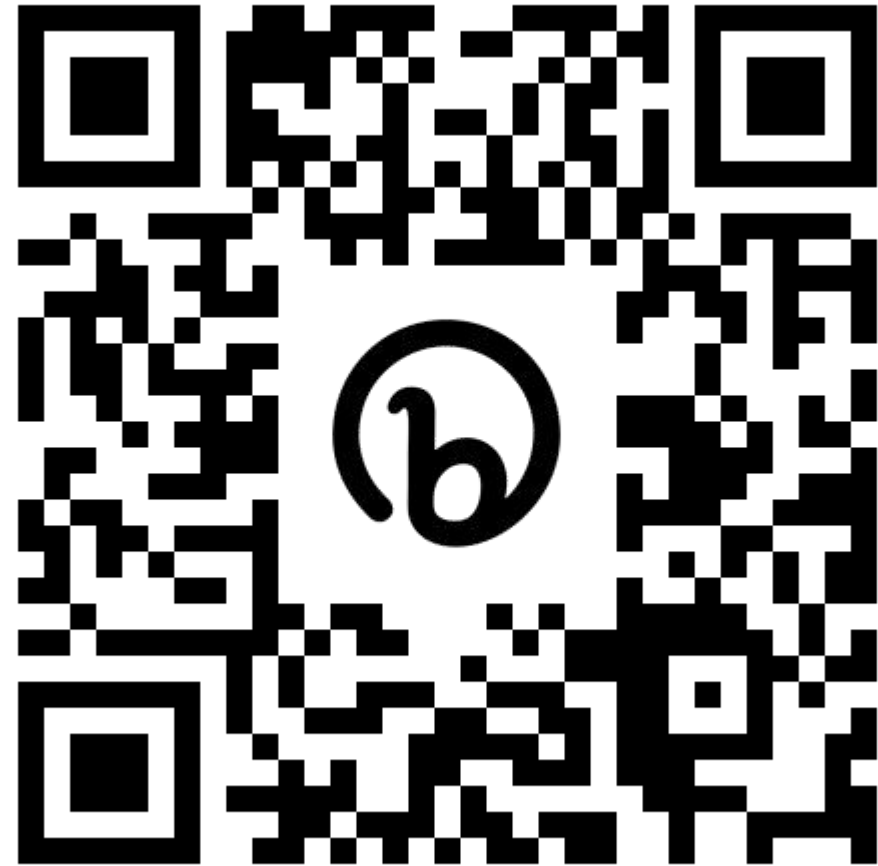

- Each of the 6 Economic Sectors, 7 Enablers & Poverty Sector will have overall KPIs
- Each project will have its own outcome targets (yearly, 2025, 2030)
- The progress of the projects will be tracked a quarterly dashboard, monitored by the state government's leadership team
- An annual report will be published in March the following year to report progress of PCDS 2030 to the public

Problem solving mechanism
